## Saphena White AES

- We are the fastest growing brand across the UK
- A leading supplier to the NHS and private hospital groups, and sole contract award winner in Scotland and Wales
- We have a rapidly growing International business and sell in countries around the world. We are market leaders in Ireland
- Originally launched as a coloured product ( green), we have transitioned to a White only product which is not only much more environmentally friendly, but preferred by patients and clinicians
- The relaunch to White has driven our growth

## Saphena White AES Re-Branding

- Our Saphena white stockings are clinically preferred:
  - Any fluids or oedema from the skin can be identified more quickly and in turn helps to reduce incidence of skin viability issues
- Our Saphena white stockings are preferred by patients:
  - The white yarn is more comfortable for patients being softer and more flexible, resulting in greater compliance and easier application
- Our Saphena white stockings are more environmentally friendly:
  - By moving from a coloured product, we use fewer colour dyes and chemicals, reduce manufacturing times and energy usage and leave a reduced carbon footprint.....

## Features and Benefits

- Class 1 medical device - A tried and tested brand with a proven graduated compression profile.
- Third party (SMTL) certified compression
- Two-way stretch yarn construction for easy application and superior soft-touch feel, improving patient comfort.
- Simple colour-coded sizing system for easy identification with a colour-coded tape measure to save time on sizing (single patient use tape measure).
- Packaging includes patient insert for correct application and home-care instructions.
- Medalin Saphena® Grip is also available and is designed to reduce slips, trips and falls. Available in Knee Length, Plus Size (suitable for Bariatric patients) and Thigh length.

## Features and Benefits

- Universal fit – no left or right foot selection required.
- Comfort heel patch to guide and help position the stocking correctly.
- Simple fitting system with a single ankle measurement for below-knee and only two measurements for our thigh length range saves time
- Carefully chosen sizing options reduces range complexity and inventory
- Latex Free.
- Dedicated clinical support in person and online
- An open invitation to visit our factory!

## Saphena Range

Saphena White AES Range includes sizes from Small – XXL with the inclusion of a Small-Short stocking in the Below-Knee range.  
Grip options available throughout the Saphena White range.

## Saphena GRIP: Reduce Slips, Trips & Falls

- Saphena Grip assists hospitals in managing the number of trips and falls as well as reducing the risk of DVT.
- The stockings have been developed with an effective grip sole with added silicone
- Grip is available in below-knee length and thigh length to create a full range of anti-embolism grip stockings assisting hospitals in reducing the number of patients experiencing trips and falls.
- Significant savings to the N.H.S. as additional cost of slipper socks is no longer required, which also reduces the Trust's environmental impact

## Dedicated Product Specialist & Training Materials

Medalin have a dedicated team of Clinical Support Specialists

- You will have a designated Support Specialist for your trust who will assist with any training needs, questions or support at anytime.
- The Specialist will also set out an education programme to allow all necessary wards to receive the training on the new Saphena Anti-Embolism Stockings range.
- Step by step sizing charts and contra-indications posters will be distributed so that each ward has a visual training aid.
- All training and support is complimentary with no additional costs.
